DO YOU HAVE A ROOM FOR A COUPLE OF MEDICAL STUDENTS FOR THREE NIGHTS?

Curtin Medical Student Rural Immersion Week  
TUESDAY 12 TO FRIDAY 15 MARCH 2024

Share your *town and rural lifestyle* with **doctors of the future**

Over 100 second year Curtin University medical students will attend the Curtin Medical School Student Rural Immersion Week, and hopefully be inspired to work in rural Western Australia.

During their stay, they will visit local farms, industry, general practices, hospitals and schools, and participate in community activities.

**Do you live in or near Brookton, Corrigin, Dalwallinu, Katanning, Kondinin, Kulin, Moora or Wongan Hills?**

As a host, we will ask you to provide accommodation for two or more students for three nights, be able to assist with transporting them to/from town, and share what it is like to live in your town with the students.

You are invited to come along to a Thank You dinner with the students on the Thursday night.

**Why host?**

**If you live in or near one of these towns we would love to hear from you!**

This is a life-changing experience for the students, with many having no previous exposure to rural life.

By providing these rural immersion opportunities early in their degree, it has been proven that students are more likely to explore rural career opportunities and have a better understanding of treating rural patients.

Some students continue to keep in touch and visit their host families, some return to do seasonal work and placements, others have joined mentoring programs and some have inspired host family members to pursue tertiary studies in health and medicine.

# Affordable and Practical Farm Safety

Are you aware there is another very affordable and practical farm safety option on the market? We are visiting a few other farmers in your region and wanted to let you know about the services we offer; in case you haven't heard about us. We are the fastest-growing safety business for many great reasons. Affordability, practicality and a 'friend in the know' to call if an incident occurs are just a few.

We were recently announced State Finalists in the 2023 Telstra Best of Business Awards, beating over 20,000 businesses Australia-wide, so we know we are on the right track. We honestly believe that if safety is not affordable, practical, and quick to implement, it just won't happen. The feedback we are receiving is that our approach is very practical and supportive. We won't ask you to throw away any old equipment, just consider it comes with a separate set of instructions for those that use it.

After a 25-year policing career (but starting off as a farm hand when I first left school) I am committed to keeping people safe in my business called Regional Safety Services. As you can appreciate, I have seen all aspects of farming tragedies, and the new Industrial Manslaughter Legislation is not something to be taken for granted. Even if you do not hire staff, you can still find yourself subject to this legislation if something happens and you do not have the required safety systems or records in place.

Most farmers are doing the right thing to keep their team safe but lack the evidence to prove it. This is where we can help you! Unlike our competitors, we come to you and conduct a two-hour on-site safety appraisal for only \$880.00. We will arm you with lots of tips and knowledge, prepare the documentation for you with a clear overview of your position and actions to take. You will not be left guessing what you need to do.

To make life easier we have introduced our own online safety forms to help capture your current effort in this area. We have spent over two years developing our Plant and Machinery Risk Assessment forms, which include Harvester, Seeding, and other farm machines. These forms are only \$99.00 to access them for 12 months. These forms have been recommended by farmers like you and most can be done in 1-2 minutes. They can be done on your mobile device, and we provide QR codes for quick and direct access. If

you undertake a service like ours, it would be virtually impossible for someone to say you were grossly negligent, as you are doing something proactive and demonstrating an open commitment to safety. Too many farmers are saying they will plead ignorant if something happens. In light of the recent WorkSafe review of the agricultural industry, there is a massive target on the back of farmers and as such I urge you to help raise the bar of safety in your industry. The WorkSafe review into the agriculture industry is now complete and I look forward to helping my clients get on the front foot with the changes soon to be implemented.

If you have any further questions, I am available on my mobile or feel free to make contact via email and I can send you more details about what we will do when we attend your farm to conduct an appraisal. We also service many other businesses, not just farms.

# Social News

Hyden Tennis Club hosted close to 80 women at their tennis club on the 15th November for Ladies Day. What a great turn out ladies! Well done!

The Kondinin Community and Recreation Council and the Hyden Progress Association both coordinated successful community crop harvests this year. A great effort was put in by everyone involved to make growing and harvesting these crops possible. Well done to both groups and everyone who helped out!

The Kondinin Twilight Markets were held on the 14th December in the Kondinin Community Garden. It was great to see lots of new stallholders in attendance and a fantastic turnout from Kondinin residents and surrounding communities.

One of the youngest stallholders this year was Kondinin local Jade Wilkins. Jade's handmade bracelets, keyrings and Christmas decorations were very popular. Well done Jade!

We hope everyone enjoyed the evening!
