- ✓ An estimated surplus of about \$4.3M is anticipated to be brought forward from 30 June 2023 comprising of Advanced Financial Assistance Grants (FAGS) allocation and capital grants for LRCl projects carried forward. However, this amount is unaudited and may change. Any changes will be addressed as part of the mid-year budget review.
- ✓ \$3.6m of rates is expected to be raised to cover the budget deficiency and to bring the budget to balance.

## Consultation

Extensive internal consultation has occurred between Executive Management and through discussions with elected members at budget workshops.

## Statutory Environment

Section 6.2 of the *Local Government Act 1995* requires that no later than 31 August in each financial year, or such extended time as the Minister allows, each local government is to prepare and adopt, (Absolute Majority required) in the form and manner prescribed, a budget for its municipal fund for the financial year ending on the next following 30 June.

Division 5 and 6 of the *Local Government Act 1995* refer to the setting of budgets and raising of rates and charges. The *Local Government (Financial Management) Regulations 1996* details the form and content of the budget. The draft 2023/2024 budget as presented is considered to meet the statutory requirements.

## Policy Implications

The budget is based on the principles contained in the Integrated Plans such as: Strategic Community Plan, Corporate Business Plan, Long Term Financial Plan, Asset Management Plan and Workforce Plan.

## Financial Implications

Specific financial implications are as outlined in the detailed section of this report and as itemised in the draft 2023/2024 budget for adoption.

## Strategic Implications

Supports the following section of the Shire's Strategic Community Plan 2022 – 2032

“ 4. Civic Leadership

4.2 We are a compliant and resourced Local Government”

## Voting Requirement

Absolute Majority required: Yes, for some of the parts of the recommendations.

Note 16	Trust Funds	26
Note 17	Fees and Charges	26

## 1 (a) BASIS OF PREPARATION

The annual budget has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvement at fair value is a departure from AASB16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this annual budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Financial reporting disclosures in relation to assets and liabilities required by the Australian Accounting Standards have not been made unless considered important for the understanding of the budget or required by legislation.

### The local government reporting entity

All funds through which the Shire of Kondinin controls resources to carry on its functions have been included in the financial statements forming part of this annual budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 16 to the annual budget.

### 2022/23 ACTUAL BALANCES

Balances shown in this budget as 2022/23 Actual are estimates as forecast at the time of preparation of the annual budget and are subject to final adjustments.

### Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

### Comparative figures

Where required, comparative figures have been adjusted to conform with changes in preparation for the current financial year.

### Initial application of accounting standards

During the budget year, the revised Australian Accounting Standards and interpretations are expected to be compiled become mandatory and be applicable to its operations.

- \* AASB 2021-2 Amendments to Australian Accounting Standards - Disclosures of Accounting Policies or Definition of Accounting Estimates
- \* AASB 2021-6 Amendments to Australian Accounting Standards - Disclosures of Accounting Policies: Tier 2 and Other Australian Accounting Standards
- \* AASB 2022-7 Editorial Corrections to Australian Accounting Standards and Repeal of Superseded and Redundant Standards

It is not expected these standards will have an impact on the annual budget.

### New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- \* AASB 2014-10 Amendments to Australian Accounting Standards - Sale of Contribution of Assets between an Investor and its Associate or Joint Venture
- \* AASB 2020-1 Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current
- \* AASB 2021-7c Amendments to Australian Accounting Standards - Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections [deferred AASB 10 and AASB 128 amendment in AASB 2014-10 apply]
- \* AASB 2022-5 Amendments to Australian Accounting Standards - Lease Liability in a Sale and Leaseback
- \* AASB 2022-6 Amendments to Australian Accounting Standards - Non-current Liabilities with Covenants
- \* AASB 2022-10 Amendments to Australian Accounting Standards - Fair Value Measurements of Non-Financial Assets of Not-for-Profit Public Sector Entities.

It is not expected these standards will have an impact on the annual budget.

### Judgements, estimates and assumptions

The preparation of the annual budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- \* estimated fair value of certain financial assets
- \* estimation of fair values of land and buildings and investment property
- \* impairment of financial assets
- \* estimation uncertainties and judgement made in relation to lease accounting
- \* estimated useful life of assets

### Rounding off figures

All figures shown in this statement are rounded to the nearest dollar.

All land in the Shire of Kondinin used predominantly for non-rural purposes are rated according to its Gross Rental Valua (GRV), all other properties are rated according to their Unimproved Valuation (UV).

The general rates detailed for the 2023/24 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated evenue to be received from all sources other than general rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

(c) Objectives and Reasons for Differential Rating

To provide equity in the rating of properties across the Shire the following rate categories have been determined for the implementation of differential rating.

Differential general rate

Description	Characteristics	Objects	Reasons
GRV Residential	Properties within the townsite boundaries with a predominant residential land use.	This rate is to contribute to service desired by community.	Revenue derived from this category will assist funding the service levels expected by the community and achieving the outcomes of the Strategic Community Plan.
GRV Mining	Mining infrastructure associated with mining activities.	The objective is to raise additional revenue to contribute toward higher road construction and maintenance costs associated with mining activity.	The servicing of mining operations result in the Shire's road network requiring continual/ongoing maintenance and renewal work to service these users.
UV Rural	Consists of properties used predominantly used for farming.	The object is to maintain equity in the rating of property throughout the Shire enabling the Council provide facilities, infrastructure and services.	This is considered to be the base rate above which all other UV properties are assessed.
UV Mining	Properties with a land use associated with mining tenements/prospecting leases.	The objective is to raise additional revenue to contribute toward higher road construction and maintenance costs associated with mining activity.	The reason for this category is due to the additional costs of maintaining roads in the eastern sector of the Shire associated with the frequent heavy vehicle use from the mining companies operating in the area.

(d) Differential Minimum Payment

Description	Characteristics	Objects	Reasons
GRV Residential	Properties within the townsite boundaries with a predominant residential use with a dwelling located on the land.	This rate is considered the minimum contribution for basic services and infrastructure.	This is considered to be the base minimum for GRV rated residential properties.
GRV Residential Vacant	Vacant land located within the townsite boundaries excepting land with commercial/industrial use.	This rate is considered the minimum contribution by vacant land for basic services and infrastructure.	The minimum for this category is designed to encourage land owners to develop their vacant residential land.

### 3(d). NET CURRENT ASSETS (CONTINUED)

#### SIGNIFICANT ACCOUNTING POLICIES

##### CURRENT AND NON-CURRENT CLASSIFICATION

An asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operating cycle. In the of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intention to release for sale.

##### TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire of Kondinin becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short term nature.

##### PREPAID RATES

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

##### INVENTORIES

###### General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

###### Superannuation

The Shire of Kondinin contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

##### LAND HELD FOR RESALE

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Financial costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the Shire's intentions to release for sale.

##### GOODS AND SERVICES TAX (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of

##### TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed in the ordinary course of business.

Trade receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Trade receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security of rates receivable.

##### PROVISIONS

Provisions are recognised when the shire has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

##### EMPLOYEE BENEFITS

###### Short-term employee benefits

Provision is made for the Shire of Kondinin's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

###### Other long-term employee benefits

Long-term employee benefit provision are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporated anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dated that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are

#### SIGNIFICANT ACCOUNTING POLICES

##### CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

##### FINANCIAL ASSETS AT AMORTISED COST

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

5. FIXED ASSETS

SIGNIFICANT ACCOUNTING POLICES

RECOGNITION OF ASSETS

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

GAINS AND LOSSES ON DISPOSAL

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

SIGNIFICANT ACCOUNTING POLICIES

DEPRECIATION

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Buildings - non-specialised	30 to 50 years
Buildings - specialised	50 to 80 years
Furniture and Equipment	4 to 10 years
Plant and Equipment	5 to 15 years
Infrastructure - roads	20 to 80 years
Infrastructure - footpaths	20 years
Infrastructure - drainage	80 years
Infrastructure - water supply	30 to 75 years
Infrastructure - parks and ovals	10 to 60 years
Infrastructure - waste facilities	40 years
Right of use - plant and equipment	Based on the remaining lease

AMORTISATION

The depreciable amount of all intangible assets with a finite useful life, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The assets residual value of intangible assets is considered to be zero and useful life and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income.

#### SIGNIFICANT ACCOUNTING POLICIES

##### Interests in joint arrangements

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required.

Separate joint arrangements providing joint ventures with an interest to net assets are classified as a joint venture and accounted for using the equity method. The equity method of accounting, whereby the investment is initially recognised at cost and adjusted thereafter for the post acquisition change in the Shire's share of net assets of the associate.

##### Interests in joint arrangements (Continued)

In addition, the Shire's share of the profit or loss of the associate is included in the Shire's profit or loss.

Joint operations represent arrangements whereby joint operators maintain direct interests in each asset and exposure to each liability of the arrangement. The Shire's interests in the assets, liabilities, revenue and expenses of joint are included in the respective line items of the financial statements.

Dear Mr Burton

#### **SHIRE OF KONDININ – DIFFERENTIAL RATES 2023/24**

I refer to the Shire of Kondinin's (the Shire's) application dated 17 July 2023 requesting approval to impose a differential general rate that is more than twice the lowest rate in the unimproved value (UV) and Gross Rental Value (GRV) category.

I advise that, under delegated authority from the Minister for Local Government and in accordance with section 6.33(3) of the *Local Government Act 1995*, I have approved the Shire's application to impose differential general rates as follows:

<b>Category of Rating (UV/GRV)</b>	<b>Rate in the dollar 2023/24 (cents per dollar)</b>
UV Mining	27.0497
GRV Mining	25.3937

The approval is valid for the 2023/24 financial year.

During the assessment, it was noted that some confusion arose as to whether the Shire had sufficiently consulted with ratepayers in the GRV Mining category as required by the Minister's differential rates policies.

The information subsequently supplied by the Shire has reassured me that the Minister's policies have been met. Nevertheless, it would be appreciated if this information could be included with the Shire's future applications to avoid any unnecessary delay.
