1. Purpose of the Plan

The Shire of Kondinin Sport and Recreation Facilities Plan has been developed to provide a clear vision of the direction in which Council, in partnership with local sport and recreation clubs would like to proceed with sport and recreation facilities over the next 10yrs and beyond. The purpose of the plan is to:

- **Identify the sport and recreation facilities** throughout the Shire of Kondinin
- **Highlight the needs of sporting groups** and what facility improvements are most-needed from their perspective with consideration of the future
- **Improve opportunities to participate** in active recreation and sporting activities within the Shire and
- To **establish a framework of investment** to address the key priorities for sustainable sport and recreation facilities across the Shire of Kondinin

2. Plan Development

The following stages were taken in developing this plan.

Members of the Working Group included Cr Mouritz, Cr Gangell, Cr Pool and Manager of Assets Tory Young.

3. Current Situation

The communities across the Shire of Kondinin have a strong sporting culture, history and connection with the wider community with successful clubs and teams across the district. Although the majority of sport and recreation infrastructure across the district is owned by the Shire of Kondinin there is a great sense of ownership and pride felt by the clubs that operate from these facilities towards their grounds and they actively contribute towards new or renovated facilities to improve their playing surfaces or clubrooms.

Current Sport and Recreation Facilities Across the Shire

Kondinin

- Kondinin Country Club – recently (2018-19) renovated to include new change rooms an enlarged kitchen and function area.
- Kondinin Bowling Rink
- Kondinin Hockey Field – not currently fit for use
- Kondinin Pavilion and Football / Cricket Oval
- Kondinin Netball Courts
- Kondinin Tennis Courts (4)
- Kondinin Aquatic Centre & Bill Smoker Room – built in 2014 with new amenities opened in 2015. Open from November to April. Includes a 25-metre lap pool, beach entry to toddlers and learn to swim area, spa area, kiosk and BBQ area. There is also a function centre available for hire all year round.
- Kondinin Golf Course – 18 holes and clubroom

Karlgarin

- Karlgarin Pavilion – Oval and clubroom catering for cricket.
- Karlgarin Bowling Club – Club room and bowling green

Hyden

- Hyden Recreation Centre
- Hyden Netball Courts (3)
- Hyden Cricket / Football Oval
- Hyden Hockey Grass Field
- Hyden Tennis Club – 8 courts and club room
- Hyden Golf Course – 18-hole course based around Wave Rock.
- Hyden Swimming Pool – a major upgrade was undertaken in 2008. Open from November to April. Features a main pool, toddlers and babies pool, diving pool with 1 and 3 metre high springboards. Also includes a volleyball court, cricket and basketball area, kiosk and large grassed area.

Sport and recreation clubs across the Shire have a unique set of circumstances which influence this plan:

- Multiple sport and recreation facilities across three townships e.g. two swimming pools, three ovals, two recreation centres, two bowling greens, etc.
- Across Shire sporting clubs e.g. KK Vipers Hockey Club
- Across township clubs e.g. Karlgarin Hyden Hockey Club
- Two active sports councils in the townships of Hyden and Kondinin which assist in sports leadership, planning and facility development

Payments and fees across the Shire vary and arrangements are in place with the two Sporting Councils regarding usage fees as well as any clubs not affiliated with these two organisations.

Statistical Profile of the Shire of Kondinin

- Population: 873 (ABS Census 2016)
- Total Shire population down by 86 people (-9%) from 950 (2001) to 864 (2016)
- Electors: 568 (Your Everyday Council Statistics 2019/20)
- Population growth rate of -10.3% over the period 2006 to 2016 (968 persons at the time of the 2006 Census down to 873 in 2016)
- Median age: 43 years (ABS, Census 2016)
- The median aged has increased by almost a decade, up from a median age of 34 in 2006
- Population of Aboriginal and/or Torres Strait Islander people: 57 (ABS, Census 2016)
- The Aboriginal proportion of the population has decreased in the Shire from 8.6% in 2006 to 6.6% in 2016 (ABS, Census 2016)
- Median weekly income has increased from \$452 in 2006 to \$763 in 2016 (ABS, Census 2016)
- Median weekly family income has increased from \$1,081 in 2006 to \$1,570 in 2016 (ABS Census 2016)

Community Profile of the Shire of Kondinin

(INSIGHT Regional Australia Institute – data compiled using a number of state and federal data sets between 2010 - 2016)

- High rate of volunteerism (42.6% of persons aged 15 and over participate in voluntary work) but with a declining population there is a high risk of volunteer fatigue with fewer people available to contribute.
- Access to allied health services and distance to medical facilities are ranked poorly, with an average distance of 49.5km for resident to travel to access a medical facility.
- Poor access to telecommunications infrastructure and services (only 73% of households with internet connections, limited broadband coverage)
- High business turnover per capita (\$267,743)
- High population turnover (34.7%) and population decline (growth rate of -4.14%)
- High rate of workforce participation (63.3%) and low unemployment (2.5%)

Participation Across the Shire of Kondinin

It is difficult to determine the Shire's participation rate in non-structured sport and recreation activities such as dancing, cycling, running, use of skate parks or other activities where clubs aren't involved.

On average sporting club participation remains stable but with the increasing pressure of volunteer burn out in delivering these sports. Hockey, netball and tennis have more female participants than male.

Although clubs are open to having members of varied abilities, sporting club participation across non-able bodied participants is low – this could be linked to a number of factors.

A massive voluntary effort to run the sport and recreation clubs across the Shire is evident. Additionally many of the same people are on multiple sport and community group executives.

4. Future Planning, Ideas and Issues

Over the last five years \$9m has been spent across the district on sport, recreation and cultural infrastructure. The annual maintenance and operating costs associated with sport and recreation infrastructure is approximately \$1.8m each year, with the three town ovals, recreation centres and swimming pools being the main cost areas. Annual income from sports clubs for the facilities is proportionately low – circa \$25K. Annual depreciation is circa \$750K.

Historically the Shire has relied on valuable contributions from the State and Federal Governments as well as the sporting clubs to maintain and enhance sport and recreation infrastructure. Usually on 1/3rd contribution basis from each party.

Whilst all clubs can point to areas of improvements in their facilities, most of the sport and recreation facilities seem to be of a moderate to good standard.

To assist in the forward planning of sport and recreation infrastructure and priorities across the district, the Shire of Kondinin held two workshops to receive feedback on sport and recreation facilities (16 and 18 February 2021). Over 55 attendees came. The level of engagement was extremely positive, and it was clear to see how much sport and recreation meant across the district.

When discussing the meaning of sport and recreation to the district many positive references were made with a resonating comment being made that sport and recreation is the ***plays a central role in community health, wellbeing and social cohesion.***

The main themes mentioned at the workshops included:

- Social fabric across the three communities
- Togetherness and a sense of community
- Mental and physical health and wellbeing
- Pride and achievement

Barriers to Participation

Attendees analysed the main barriers to participation across the district and any specific groups that were missing out. Attendees also identified a number of ideas to help alleviate barriers and improve participation. The main themes were:

- Financial factors – membership fees, other costs of participation e.g. equipment
- Limited population growth – lack of people and limited accommodation for new people across the communities
- Associations – fixturing conflicts across sports and during peak agricultural seasons
- Distance – regional competition means lots of traveling to games which may be hard for some with other commitments
- Advertising/Awareness – apprehensive about breaking into new groups, no knowledge or awareness of options

Attendees identified some ideas moving forward to break down barriers:

- More children
- Review membership regularly to make sure its affordable
- Lowering fees/subs to encourage access
- Childminding services so parents can play

- Association re-align to follow each other
- Engagement with schools
- More drive for juniors
- Promotion of participation within clubs
- Improve facilities
- Focus on junior development, coaching clinics
- Open days and invitations to surrounding clubs
- Share the load to help volunteers

Facility Planning

Since the initial workshops, the Shire of Kondinin and sports clubs have developed the following list of short term (1-2yrs), medium term (3-5yrs) and long term (5yrs plus) significant facility projects.

Relationship to Shire Plans

Asset Management Plan: There has been no allocation in the asset management plan for the receipt of sport and recreation grants to improve facilities.

Identification of sport and recreation facility maintenance and upgrades in the asset management plan:

Kondinin sports pavilion roof	\$35,000	2020/21 – 2025/26	Will now be included in whole of Pavilion upgrades
Swimming Pool Building renewal	\$400,000	2022/23	Scaled back and brought forward due to drought funding eligibility
Hyden Recreation Centre	\$65,000	2020/21	Planning stage
Kondinin Bowling Green resurface and Kondinin oval reticulation	\$271,358	2018/19 – 2020/21	Kondinin oval reticulation completed Kondinin bowling green resurface in progress
Sports Courts reseal	\$123,209	2018/19 – 2022/23	Allocation towards any reseal
Hyden Tennis Club	\$30000	2020/21	Planning stage
Karlgarin Oval Fence	\$25000	2019/20 – 2020/21	Completed 2020

5. Sport and Recreation Funding

The following are possible sources for the implementation of this plan.

Community Sporting and Recreation Facilities Fund (DLGSC)

The Western Australian Government commits to funding sport and recreation through the Community Sporting and Recreation Facilities Fund (CSRFF). The purpose of the program is to provide financial assistance to community sport and local governments to develop basic infrastructure for sport and recreation. The program aims to maintain or increase participation in sport and recreation with an emphasis on physical activity, through rational development of good quality, well designed and well-utilised facilities. The maximum grant offered for standard grant applications is one third of the total estimated project cost (excluding GST) up to a maximum grant of \$2 million. Some applications will be eligible for up to one half of the project cost if they are eligible through the development bonus scheme and target specific criteria.

CSRFF can fund new or upgraded facilities which will maintain or increase physical activity or result in a more rational use of facilities. Priority will be given to projects that lead to facility sharing and rationalisation. The program is not designed to provide facilities to meet a club's ambitions to compete in a higher grade.

Clubrooms including social space, kitchen, administration areas and viewing areas will be considered low priority as they are not directly linked to physical activity. Resurfacing projects are unlikely to be funded through CSRFF and would only be funded at a 16.66% rate as it is expected that facility managers will budget for resurfacing of existing sport surfaces as part of the ongoing operation of infrastructure.

Building Better Regions Fund

The \$1.04 billion Building Better Regions Fund (BBRF) supports the Australian Government's commitment to create jobs, drive economic growth and build stronger regional communities

into the future. The Infrastructure Projects Stream: Supports projects that involve construction of new infrastructure, or the upgrade or extension of existing infrastructure and the Community Investments Stream: Funds community development activities including, but not limited to, new or expanded local events, strategic regional plans, leadership and capability building activities.

6. Appendices

Key Definitions

Recreation (i.e. active recreation) activities are those involving physical exertion where the primary focus is individual or group participation and enjoyment over elements of competition where rules and patterns of behaviour govern the activity. Active recreation does not include 'active work' or 'active living'. For the purpose of this plan any reference to 'recreation' is defined as 'active recreation'.

Sport is a human physical activity involving physical exertion and skill as the primary focus of the activity, with elements of competition where rules and patterns of behaviour governing the activity exist formally through organisations and is generally recognised as a sport. CSRFF

CSRFF aims to increase physical activity and participation in sport and active recreation in Western Australia. CSRFF has several priorities to achieve this goal.

Some of the priority considerations for CSRFF include:

- Projects that will directly lead to an increase in physical activity or participation.
- Projects that lead to facility sharing between clubs, or rationalization of existing facilities to increase sustainability.
- Projects to upgrade facilities to make them more accessible for female participants (e.g. changerooms with lockable showers and no urinals).
- Projects in a location with a significant Aboriginal population that will increase participation or physical activity.

The type of projects which will be considered for funding include:

- New playing surfaces — ovals, courts, synthetic surfaces etc.
- Floodlighting projects (must be to Australian Standards)
- Change rooms and ablutions
- Sports storage

The types of projects which are eligible for funding, but will be considered a lower priority for funding are:

- Clubrooms including social space, kitchens, training rooms and administration areas (due to their minimal impact on physical activity).
- Shade shelters, viewing areas and verandahs (due to their minimal impact on physical activity).
- Resurfacing of existing sports surfaces such as courts and bowling greens. It is expected that facility managers will budget for these items as part of the ongoing operation of the facility, frequently over 7 to 10 years. If supported the project will likely attract a reduced funding percentage

Any project that does not achieve the aim of the fund to increase physical activity or participation in sport and active recreation will not be considered. Other funding bodies such as Lotterywest may provide funding for these facilities (e.g. arts, music, craft and passive recreation such as cards or men sheds)

Some other projects that are ineligible for funding through CSRFF include:

- Projects that have commenced or will commence before approvals are announced.
- Development of privately-owned facilities or commercial spaces.
- Arts, music and craft facilities.
- Maintenance or operating costs of existing facilities.
- Purchase of land, landscaping, car parks, access roads and other infrastructure costs.

- Playgrounds.
- Bikeways or pathways.
- Non land-based facilities, e.g. boat launching ramps, ocean pools and marinas.
- Non-fixed equipment or fixed sports specific equipment (for instance electronic targets, scoreboards).
- Facilities or fixtures for the express purpose of serving alcohol.
- Projects that do not meet Australian Standards and National Construction Code

PROJECT PLANS

PROJECT: Hyden Sports Surface and Facilities Precinct Plan

1. Project Description: Forward plan all playing surfaces and facilities in the Hyden Recreation Centre Precinct

2. Reasoning:

The Hyden Sports Council has been working closely with affiliated clubs to forward plan the Hyden sporting precinct over the last few years. There is a strong desire to see co-located surfaces and facilities as well as one day sport.

The Hyden netball courts are coming up for resurfacing (5-10yrs) and will continue to be resurfaced going into the future. Consideration towards relocation v resurfacing in the master plan

The Hyden tennis courts will be coming up for resurfacing (1-5yrs)

The hockey field requires watering and supply may be an issue in future years (drying climate)

The Karlgarin Hyden Hockey club would like toilets closer to their playing field as well as greater connection to the pavilion.

There are no women's change rooms at the Recreation Centre

There is a lack of storage for sports clubs.

A multipurpose tennis / hockey surface may be explored OR a netball / tennis hardcourt may be explored (colocation)

3. Scope of Works:

- Develop a surface and facility precinct plan

4. Club: Hyden Sports Council, Karlgarin Hyden Hockey Club, Hyden Netball Club, Hyden Karlgarin Football Club, Hyden Karlgarin Pingaring Cricket Club, Hyden Tennis Club

5. Budget: \$10K

6. Replacement Cost:

7. Commitment: Hyden Sports Council working with clubs on a precinct plan

PROJECT: Kondinin Water Access and Storage

1. Project Description: Reliable water supply to the Kondinin Oval and Hockey Field

2. Reasoning:

Lack of water affects the grass and quality of the playing surfaces.

This asset has had significant investment by the Shire in previous years

Engagement with Water Corp to access water to Yerrakine Dam and then into town

3. Scope of Works:

- Resolve water supply issues with Water Corporation
- Install water storage

4. Club: Kondinin Community Recreation Council, KK Football Club, KK Vipers Hockey Club

5. Budget: \$50K

6. Replacement Cost:

7. Commitment: The Shire of Kondinin will work with the Water Corp to resolve water access issues

PROJECT: Kondinin Hockey Field

1. Project Description: Grass Field

2. Reasoning:

Water access and storage should be determined and secured before the grass is replanted on the current field

Grass field will enable home games for the hockey club (currently share with football club)

3. Scope of Works:

- Resolve water supply issues with Water Corporation
- Levelling field and planting grass, reticulation

4. Club: Kondinin Community Recreation Council, KK Vipers Hockey Club

5. Budget: \$135K

6. Replacement Cost:

7. Commitment: The Shire of Kondinin will work with the Water Corp to resolve water access issues, KCRC and KK Vipers \$45K

PROJECT: Kondinin Pavilion

1. Project Description: Improve the Kondinin Pavilion change rooms and minor upgrades

2. Reasoning:

Pavilion used for Winter and Summer sports. Pavilion is ageing.

3. Scope of Works:

- Design additions and modifications – improved disabled access and access throughout the building, water capture and storage, women's change rooms, larger gathering area, umpire room and shower, new roof and modernisation of kitchen

4. Club: Kondinin Community Recreation Council, Kulin Kondinin KK Vipers Hockey Club, Kondinin Kulin Cricket Club; Kondinin Kulin Football Club.

PROJECT: Golf Clubs

1. Project Description: Minor improvements to the Hyden golf clubhouse and at the Kondinin golf club

2. Reasoning:

Hyden Golf clubroom ceiling needs replacement as it may be dangerous in years to come

Solar panels on the Kondinin Golf Shed for buggy charge station, extra storage space

3. Scope of Works:

- Hyden Golf Club ceiling replacement
- Kondinin shed construction and solar panels

PROJECT: Hyden Recreation Centre

1. Project Description: Upgrade the Hyden Recreation Centre in line with the precinct plan

2. Reasoning:

Hyden Recreation Centre serves the Winter sports of football and hockey and the Summer sport of cricket. Going forward the netball club may use the Recreation Centre if they co-locate.

The Recreation Centre upgrades will include an expansion and upgrade of change rooms for home and away teams, so too women as these are currently inadequate.

Inclusion of an improved gym space with access outside of hours.

3. Scope of Works:

- Womens and away team change rooms
- Gym construction
- Storage space
- Improved spectator viewing and meeting space
- Co-location and use of kitchens, canteen access etc
